

CENTER BREAK "V" SWITCHES CBV AND VEE

Morpac offers both aluminum and copper center break V switches with its VEE and CBV types respectively. Ratings up to 3000A and 245 kV are available.

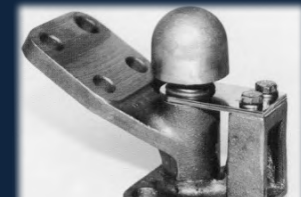

Morpac's rotating hinge contacts maintain full contact and current transfer throughout all degrees of rotation without the use of braided or laminated shunts.

	CBV	VEE
Primary Material	Copper	Aluminum
Current Range	600A – 2000A	1200A – 3000A
Voltage Range (nom)	7.5kV– 230kV	69kV– 230kV

CBV 23kV, 1200A
Contact

CBV 115kV, 1200A
