

# SIDE BREAK SWITCHES - R14C

The type R14C is a three pole - single throw, side-break, outdoor disconnect switch available in ratings up to 72.5 kV at 600 and 1200 amps. The R14C is an all-copper switch with high conductivity copper blades and silver inlaid stationary contacts. The R14C switches are an original and rugged design that will outperform any competitive switch on the market today.

**Type R14C**

**R14C with optional arcing horns**

	<b>R14C</b>
Primary Material	Copper
Current Range	600A - 1200A
Voltage Range (nom)	7.5kV– 69kV

See Table of Ratings for Complete Details
